actions, claims, cost, expenses and demands in respect of death, disability or injury to myself or any other person or persons or loss or damage to any property including the car concerned in this event, if any or otherwise howsoever and not withstanding that the same may have been contributed or occasioned by the negligence of the organizer and their official, agents, representatives, employees and all persons assisting them in this event or for that matter any fellow competitor. - As introduced last year, Enduro Student India will contain two categories of participants, Clubman and Pro. When teams register, all registration will be to the Pro category with no teams being assigned the Clubman category. Throughout the year, the Clubman teams will be decided upon the basis of submissions provided by the teams. If a team fails to meet the submission deadline as per the conditions cited below, it will be demoted to the Clubman category. In the Clubman category, during the event, the team will only be awarded **half** of their gained points **for all events** (dynamics and statics).
- A team will be classified as a Clubman team if:
  - A team misses the deadline for any particular submission by more than 7 days.
  - A team accumulates a total delay of over 21 days against submissions combined. That means, if over the course of the different submissions that we have throughout the year, a team has been over 21 days late, it will be demoted to Clubman category.
- Any delay in submissions throughout the course of the year will cause a penalty of 10 points per day irrespective of the team being demoted to Clubman or not. The organizers reserve the right to demote a team to the Clubman class on failure to meet the above mentioned criteria.
